November 25, 1883 by Rev. George W. Moore; James T. Boyd, John Gibson, Wlt.

The purpose of this study is to determine the effect of the amount of light on the growth of the plant. The study was conducted in a greenhouse. The amount of light was varied by using different colored filters. The results of the study are shown in the table below.

Amount of Light	Height of Plant (cm)	Number of Leaves	Color of Leaves
High	15	10	Dark Green
Medium	10	8	Light Green
Low	5	5	Yellow
Very Low	2	3	Brown
No Light	0	0	Dead

The results of the study show that the amount of light has a significant effect on the growth of the plant. The plant grows tallest and has the most leaves when it is given the most light. The plant grows shortest and has the fewest leaves when it is given the least light. The plant dies when it is given no light.

The Bible is small, brown and leather bound and the backstrip reads Holy Bible. This Bible is old and discolored.

The preface is partly torn away. What remains reads: The Holy Bible containing the Old and New Testaments, translated out of the Original Tongues. The print is very fine and the two columns of print on each page are divided in the center by marginal notes "Before Christ"

The Bible in possession of Mrs. Leslie H. Hendrickson, Highway 62 West, Boonville, Indiana was copied by Mabel Miller, 1963

Attend you mortals to this excellent book
 Muse upon it with an anxious look
 These golden rules are for our hearing sent
 May all out time in serious thought be spent

But wicked men who with presumption dare
 Despise those truths that are contained here
 They merge below our glorious view of heaven
 Swift drawn to hell with fallen angels driven
